Jake Learman

XR Production Coordinator | Creative Content & Technical Delivery

Adaptable XR production coordinator with a Computer Science foundation and a track record of delivering AI-enabled immersive campaigns. Experienced in managing end-to-end production for XR and VFX, including vendors and budgets for complex immersive projects. I bridge the gap between creative ambition and technical execution, optimising workflows so that high-quality short-form and interactive content is delivered on time and within commercial targets.

WORK EXPERIENCE

XR Production Coordinator

Cinesite · London, UK 12/2024 – Present

RESPONSIBILITIES

- **Project Scoping & Client Management:** Directly scoped and bid on XR projects, translating brand requirements into technical production schedules and vendor scopes for global clients.
- **Commercial Oversight:** Managed production budgets from initial bid through to final delivery, ensuring target margins and high-quality creative execution.
- **AI Workflow Integration:** Led the delivery of AI-enabled content systems, streamlining creative workflows to increase production velocity and iteration.
- **Stakeholder Alignment:** Partnered with engineering and design teams to integrate AI-driven content into live immersive experiences, balancing feasibility with timeline trade-offs.

VFX Production Coordinator / Assistant

Cinesite · London, UK 01/2023 – 12/2024

RESPONSIBILITIES

- **Rapid Advancement:** Promoted to Coordinator within 3 months for exceptional ability to lead multidisciplinary artist teams and manage high-pressure delivery schedules for global studios, including HBO, Disney and Apple TV+.
- **Creative Talent Coordination:** Led delivery across artists and technical teams, overseeing production pipelines for high-scale VFX and short-form XR projects.
- **Pipeline Optimisation:** Identified systemic bottlenecks and implemented process improvements to increase throughput and operational clarity across creative departments.
- **Vendor Management:** Acted as the primary liaison between creative and vendor teams, proactively resolving blockers and ensuring compliance with technical standards.

Previous Roles

Freelance, The Third Floor London Inc, The Entertainer 10/2019 – 12/2023

ACHIEVEMENTS / TASKS

- **Production Operations:** Freelance production work as 1st Assistant Director (Film), managing set logistics and creative crews.
- **Support Roles:** Office management and runner work at The Third Floor London Inc.

EDUCATION

Computer Science BSc

University of Nottingham 09/2016 – 06/2019

- Focus on systems design, software development, databases and analytical problem-solving.
